

## Plugfest Application and Agreement

Participation in the CIFS/SMB/SMB2 Plugfest is complimentary for CIFS/SMB/SMB2 implementers. Participating companies do not need to be Storage Developer Conference (SDC) sponsors. The cost to participate in the Multi-Protocol Plugfest is \$2,500 for SDC sponsors or \$5,000 for non-sponsors.

Each company is entitled to two full conference passes per platform or operating system represented for their Plugfest participants at SDC. Additional Plugfest participants may participate in the Plugfest and attend the full SDC Conference at a cost of \$495 per attendee.

The SNIA will provide and support the networks and infrastructure for these Plugfests, creating a collaborative framework for testing. A platform test bench consists of a six foot table work area, standard 110 volt 15-amp power drop and Gigabit Ethernet network connections. Each participating company will be provided with one test bench for each platform they plan to test. For special power requirements please contact the SNIA for additional costs.

All companies participating in either Plugfest are required to submit a completed and signed application and Plugfest Confidentiality Agreement. Fax all completed forms to (719)-884-8912, attention Erin Weiner. A scanned copy in PDF format is acceptable and can be emailed to [erin.weiner@snia.org](mailto:erin.weiner@snia.org).

Please provide the number of platforms/operating systems you plan to test along with the number of Event participants you plan to bring:

	Platforms	Event Participants
