Our Mission for Today

- Introductions
- Solve the mystery of Records Information Managers (RIMs)
 - ◆ What do they do?
 - ◆ How can they help Storage Managers and Engineers?
- Get the real story behind ILM
- Compare views on issues like SOX and HIPAA
- Take your questions
- Show how, together, you can help address company business problems

- What does it mean to an IT Manager?
- What does it mean to a Records Information Manager (RIM)?
- What is a RIM's role in ILM?
 - ◆ What do we do?
 - ◆ How can we help Storage Managers and Engineers?

➤ Views on Regulations and Compliance

- ◆ Sarbanes-Oxley
- ◆ HIPAA
- ◆ Storage optimization vs. compliance issues
- ◆ eDiscovery

How Do We Approach Storage Issues?

➤ Views on Storage

- ◆ Life cycles – data vs. information
- ◆ Retention – keeping vs. finding
- ◆ Data focus – access vs. value

Is There Common Ground?

- Including RM in the IT circle
- “IT-enlightened” view of Records Management

Common Approaches or “Touch Points”

- Policy formulation
- Process automation
- Tools to implement policy
- Identification of all information repositories
- Creation and capture of business-related metadata
- Shared responsibility with regard to risk
- Records integrity and authenticity

Take Aways

- IT managers – go find your RIMs
 - ◆ If you can't find them – ask your senior management “Why?”
- Start those discussions

Q&A / Feedback

- Please send any questions or comments on this presentation to SNIA: trackdatamgmt@snia.org
- And the SNIA End User Council: www.snia.org/euc
