

Need to further your storage education?

SNIA Certification Training
e-Courses Are Now Available.

FURTHER YOUR STORAGE EDUCATION WITH SNIA e-LEARNING SOLUTIONS

The same great storage networking information that costs thousands of dollars in tuition and travel can be yours today at a much reduced cost. Whether you are using the SNIA e-Courses in preparation for certification or as material to answer a customer question, you can use the information where and when it is most convenient for you.

SNIA e-LEARNING COURSES INCLUDE:

Storage Networking Foundations

This e-Course has been designed to provide the student with an overall knowledge and technical skills to work as a team member to implement storage network solutions.

Storage Networking Standards - Management & Administration

Carefully constructed to certify that the successful candidate has the knowledge necessary to fulfill their responsibilities as a Storage Administrator, this e-Course focuses on the objectives defined for the SNIA Storage Networking Management and Administration exam.

Storage Networking Sales Professional Training

This e-Course covers material that offers marketing and sales professionals — and their respective companies — the fundamental technical knowledge to recommend a breadth of storage solutions for their customers.
