Link to event schedule – PDF of the presentation materials will be posted after the event

SNIA Focus for 2023

- **How is storage more than storage?**
 - Storage is about more than just ‘storing’ data; it’s about the proper care and feeding of data, movement of data, protection of data, security of data
 - Everything is related to everything else!
- **It’s all about the relationships!**
 - Relationships among and between technologies
 - Relationships between SNIA and its members
 - Relationships between SNIA groups
 - Relationships between SNIA and other organizations
- **Today you will see how we’re going to be addressing this across SNIA**
 - See something you’re interested in, come join us!
 - Are we missing something? Come join us and help us cover the gaps!

Questions

Your Feedback is encouraged and always appreciated.

Please use the chat feature to submit your questions/comments.
