## 2025 Review and 2026 Plans

Presented by (Chris Lionetti / Vice-Chair [storageai-chair@snia.org](mailto:storageai-chair@snia.org))

# StorageAI 2025 Accomplishments

- ▣ Link to Charter :

<https://members.snia.org/wg/StorageAI/document/57250>

- ▣ We are a new group, only formed as of SDC 2025
  - ▣ Spent first 4 weeks having the group write/agree to the new charter.
  - ▣ Once Charter approved, we elected our Officers

# StorageAI Work Items

- ▣ We view ourselves as an incubator and integrator for TWGs
- ▣ We currently have 3 TWGs:
  - ▣ Accelerated Object I/O TWG
    - ▣ Currently working on RDMA for S3
  - ▣ AI Data Workloads TWG
  - ▣ Flash Storage Preconditioning TWG
- ▣ Discussions about Future TWGs:
  - ▣ Sustainability, Accelerator Access and Initiation of I/O... and more!

# StorageAI Work Items

- Plan to mirror SNIA Preview concept inside of StorageAI
  - Will ask TWGs to present to StorageAI to populate themselves
- Plan to ask that last 10 minutes of each StorageAI call to be used to identify terms to add to the SNIA Dictionary
- Plan to work with StorageAI populace to determine next TWG to form/encourage/coordinate

# StorageAI Membership as of Jan 1, 2026
