Storage Developer Conference (SDC) India 2020
May 20-22 2020
Bangalore
Call for Presentations
The Storage Networking Industry Association (SNIA) is a global not-for-profit association advancing IT technologies, standards, and education programs for all IT professionals, enabling our members to develop robust solutions for storing and managing the massive volumes of information generated by today’s businesses.

For more than 20 years we have worked to bring recognition of storage issues to the IT world, making storage less complicated for the end user. As a result, SNIA has adopted the role of industry catalyst for the development of storage solution specifications and technologies, global standards, and storage education.
As a global non-profit organization, SNIA is dedicated to developing standards and education programs to advance storage and information technology. Our focus is concentrated in the primary storage technology development areas.
ABOUT SDC EMEA
As part of the SNIA event strategy, the Storage Developer Conference (SDC) was established to provide a platform for the storage development community to come together and share knowledge and has been established in the US event calendar since 1998. SDC was introduced to India in 2015 and has been enthusiastically received and well attended since.

4.71/5
DELEGATE EVENT RATING
The SDC India agenda offers world-class technical education from leading subject matter experts.

The content will focus entirely on providing a platform for the brightest minds in the industry to share their expertise with storage developers and technicians.

For potential sponsors this represents a unique opportunity to profile your company’s technical leadership by selecting a speaker who is a recognized subject matter expert and can provide a deep technical insight into the selected topic. All speakers are requested to share their technical knowledge for the benefit of the audience and to avoid sales or marketing presentations.

Sponsors will receive a speaking session in accordance with their chosen sponsor package, other sessions will be selected from the Call for Presentations process.

**Agenda**

**Wednesday May 20**
- Pre-conference activity
- Persistent Memory Hackathon

**Thursday May 21**
- SDC Day One
- Networking reception (subject to sponsorship)

**Friday May 22**
- SDC Day Two
Topics include (but are not limited to):

- Artificial Intelligence and storage
- Blockchain
- Cloud Storage
- Composable Infrastructure
- Computational Storage
- Container Storage
- Data Management
- Data Protection and Data Security/Privacy
- Emerging Data, Storage, Device and Transport Technologies (GenZ, OpenCAPI, CCIX)
- Erasure Coding
- File Systems
- Long term archival storage
- Machine Learning
- Memory Pooling
- NFS
- NVM Express
- Object and Object Drive Storage
- Orchestration
- Persistent Memory
- SMB
- Solid State Storage Solutions
- Storage Architecture
- Storage Fabrics Protocols
- Storage Networking
- Storage Performance / Workloads
- Storage Resource Management
- Storage Security
WHO WILL ATTEND

The audience for this conference comprises of 200+ professionals from the data storage development community — primarily storage software and hardware developers, storage product and solution architects, storage software engineers, product managers, storage product quality assurance engineers, product line CTOs, storage product customer support engineers, and in-house IT development staff.
This is the best storage developer conference I’ve attended... I liked the breadth across relevant aspects of the industry and the blend appears to be balanced as well... Very well organized and great content... Lively hallway discussions.
Call for Presentations
Profile your technical expertise to the storage development community
The SNIA Storage Developer Conference (SDC) is specifically aimed at storage technologists, architects, and developers who are tasked with making the critical storage design decisions to transform their information infrastructure. In attendance will be storage software and hardware developers, storage product and solution architects, storage software engineers, product managers, storage product quality assurance engineers, product line CTOs, storage product customer support engineers, and in-house IT development staff.
HOW TO SUBMIT YOUR PROPOSAL

**Speaker Information**

SDC is now seeking the brightest minds in the industry: professional storage developers and researchers willing to share their knowledge and experience by submitting a presentation proposal for consideration at SDC. Speakers are requested to share their technical knowledge for the benefit of the audience and to avoid sales or marketing presentations. Presentations will be chosen based on their technical merit and interest to the SDC audience. The standard session length is 40 minutes, generally consisting of a 35-minute presentation plus 5 minutes for Q&A.

**How to submit your presentation proposal**

Submissions will only be accepted via the online form, which can be found here:

https://www.snia.org/events/sdcindia/cfp

Examples of previously presented SDC technical sessions can be found at:

**Important Dates/Deadlines**

Deadline for submissions is March 31st 2020

Final notification of acceptance/non-acceptance of proposals: April 10th 2020

Receipt of final presentation materials: May 8th 2020
THANK YOU
for your interest in SDC India
