Storage Developer (Virtual) Conference (SDC) India 2021
August 5th 2021
Call for Presentations
About SNIA

SNIA MISSION

The Storage Networking Industry Association (SNIA) is a global not-for-profit association advancing IT technologies, standards, and education programs for all IT professionals, enabling our members to develop robust solutions for storing and managing the massive volumes of information generated by today’s businesses.

INDUSTRY STANDARDS & EDUCATION

For more than 20 years we have worked to bring recognition of storage issues to the IT world, making storage less complicated for the end user. As a result, SNIA has adopted the role of industry catalyst for the development of storage solution specifications and technologies, global standards, and storage education.

2,000 active contributing members
185 industry leading organizations
50,000 IT end users & storage pros worldwide
As a global non-profit organization, SNIA is dedicated to developing standards and education programs to advance storage and information technology. Our focus is concentrated in the primary storage technology development areas.
ABOUT SDC INDIA
The SNIA INDIA Storage Developer Conference (SDC) brings the storage developer community together to collaborate and network with peers through the sharing of ideas, industry developments and best practices. Usually held in Bangalore, SNIA is not able to hold a face-to-face event this year due to COVID-19. However, it is important to continue the momentum that SDC brings to the storage development community in a virtual event. SDC will continue to present excellent and informative content, as well as provide many opportunities for networking.
The SDC India agenda content will focus entirely on providing a platform for the brightest minds in the industry to share their expertise with fellow storage developers and technicians.

For potential sponsors this represents a unique opportunity to profile your company’s technical leadership by selecting a speaker who is a recognized subject matter expert and can provide a deep technical insight into the selected topic.*

Speaking Options:

☒ Sponsors will receive a preferred speaking session in accordance with their chosen package.

☒ All other breakout sessions will be selected by the agenda committee during the Call for Presentations process. These are always oversubscribed and is therefore not a guaranteed speaking option.

*All speakers are requested to share their technical knowledge for the benefit of the audience and to avoid sales or marketing presentations.

Agenda

Thursday 5th August
SDC Day One

Friday 6th August
SDC Day Two (Optional)
WHO WILL ATTEND

The audience for this conference comprises of 200+ professionals from the data storage development community — primarily storage software and hardware developers, storage product and solution architects, storage software engineers, product managers, storage product quality assurance engineers, product line CTOs, storage product customer support engineers, and in-house IT development staff.
Call for Presentations
Profile your technical expertise to the storage development community
Topics include (but are not limited to):

- AI/ML in storage
- Blockchain
- Cloud Storage
- Composable Infrastructure
- Computational Storage
- Container Storage
- Data Management
- Data Protection and Data Security
- Emerging technologies (GenZ, OpenCAPI, CCIX)
- Erasure Coding
- File Systems
- Long term archival storage

- Memory Pooling
- NFS
- NVM Express
- Object and Object Drive Storage
- Orchestration
- Persistent Memory
- SMB
- Solid State Storage Solutions
- Storage Architecture
- Storage Fabrics Protocols
- Storage Networking
- Storage Performance / Workloads
- Storage Resource Management
The SNIA Storage Developer Conference (SDC) is specifically aimed at storage technologists, architects, and developers who are tasked with making the critical storage design decisions to transform their information infrastructure. In attendance will be storage software and hardware developers, storage product and solution architects, storage software engineers, product managers, storage product quality assurance engineers, product line CTOs, storage product customer support engineers, and in-house IT development staff.
The SDC India agenda offers world-class technical education from leading subject matter experts.

Based on the volume of presentations the conference may extend into a second day (Aug 6th)

Agenda sessions are allocated in 20min blocks, and selected speakers will be asked to ensure their recording is kept within that time. If more time is needed, then speakers should select two 20min time blocks and record their presentation in two parts.
HOW TO SUBMIT YOUR PROPOSAL

Speaker Information

SDC India is now seeking the brightest minds in the industry: professional storage developers and researchers willing to share their knowledge and experience by submitting a presentation proposal for consideration at SDC India. Speakers are requested to share their technical knowledge for the benefit of the audience and to avoid sales or marketing presentations. Presentations will be chosen based on their technical merit and interest to the SDC India audience.

Agenda sessions are allocated in 20min blocks, and selected speakers will be asked to ensure their recording is kept within that time. If more time is needed then speakers should select two 20min time blocks and record their presentation in two parts. As SDC India 2021 will be a virtual conference, all presentations will need to be pre-recorded.

How to submit your presentation proposal

Submissions will only be accepted via the online form, which can be found here: https://www.snia.org/events/sdcindia/cfp2021

Examples of previously presented SDC technical sessions can be found at: https://www.snia.org/events/sdcindia/schedule2020

Important Dates/Deadlines

Deadline for submissions is June 7th 2021

Final notification of acceptance/non-acceptance of proposals: June 28th 2021
THANK YOU

for your interest in SDC India (Virtual)

Ready to submit your proposal?
