

## Please participate in SSSI Members Survey!

Calling all SSSI members to take the SSSI member survey! We want to better understand you, our member; your perceptions of our Initiative; and what you care about. With this understanding, we can serve you more effectively with effective programs and targeted content. Click this link for a 10-question survey :

<https://www.surveymonkey.com/s/SSSIMemberSurvey>

## Committee Meetings.

Regular **PCIe SSD conference calls** are held the 2<sup>nd</sup> Monday of every month at **4pm PDT** and feature a guest speaker on topics of interest.

Be sure to join us! All presentations are posted on the SSSI public page & call details are listed on the SSSI and Marketing Committee calendars.

Regular **SSSI Marketing Committee conference calls** are held the 2<sup>nd</sup> & 4th Monday of every month at **2pm PDT**.

## NVDIMM Special Interest Group (NVDIMM SIG)

The SSSI NVDIMM SIG has been formed to accelerate awareness and adoption of Non-Volatile Dual In-line Memory Modules (NVDIMMs) in the marketplace by:

- Providing education on how system vendors can "design-in" NVDIMMs.
- Communicating existing industry standards, and areas for vendor differentiation.
- Helping technology and solution vendors whose products integrate NVDIMMs to communicate their benefits and value to the greater market.
- Developing vendor-agnostic user perspective case studies, best practices, and vertical industry requirements to help end user customers understand how products and solutions can meet performance, cost, and efficiency goals.

## Open Server Summit Recap!

- Good, high-quality traffic
- NVDIMM demos were a big draw
- Significant interest in PCIe SSDs as well
- Some interest in WIOCP / performance
- SSD positioning signs were helpful to provide an overall perspective
- 10x20 space enabled better displays organized by topic
  - NVDIMM demos
  - Performance
  - PCIe SSD display
- NVDIMM SIG panel was well attended with 50 attendees asking questions both during & after the session.
- SNIA NVM Programming and NVDIMM work mentioned multiple times during the sessions

## Coming Up! Storage Visions January 4-5, Las Vegas, NV

- Demos & Displays
  - NVDIMM active demos
  - NVDIMM static displays
  - PCIe SSD static displays
- Signs: SSS Performance (TWGs), Join SSSI, NVDIMM, NVMP, WIOCP, PCIe SSD, SSD positioning
- WIOCP demo + SSD performance chart
- Booth slideshow
- Printed samples of each white paper
