Welcome Symposium Attendees,

On behalf of the SNIA Board of Directors, Technical Council, Workgroup/Forum/Initiative/Committee Leaders, and SNIA staff, it is my pleasure to welcome you to the 2017 SNIA Annual Members’ Symposium.

We have created an agenda that brings together SNIA’s various groups to work in a face-to-face setting to advance their projects and the strategic goals of the organization: standards development; market awareness initiatives; and educational and conference programs. These meetings help define the objectives and set the pace for our 2017 activities.

A tradition in the Annual Members’ Symposium is to recognize those members whose efforts and contributions during the past year were voted the most noteworthy by their peers. So, be sure to attend the reception on Wednesday evening. We will be announcing and toasting the 2016 SNIA member recognition program honorees.

Co-located with the Symposium on Wednesday is our annual Persistent Memory Summit. This year’s theme is “Delivering on the Convergence of Storage and Memory”. This Summit will run parallel with the Annual Members’ Symposium, and will share the morning speaker.

This is an exciting time of technology change in the industry. We look forward to a productive event and encourage you to get involved and become an active participant in our organization.

We also express our gratitude for your attendance and contributions to the Symposium. SNIA recognizes that its programs, industry relevance, and momentum are sustained through the direct participation of members like you.

Thank you and enjoy the Symposium,

David Dale
Chairman, SNIA Board of Directors

Michael Oros
SNIA Executive Director

GENERAL INFORMATION

Welcome to the SNIA 2017 Annual Members’ Symposium! This guide is designed to assist you in maximizing the benefit of your participation in the Symposium, whether you will be physically attending, or virtually attending by calling into the meetings during the week.

The SNIA Symposium’s primary function is to bring together SNIA’s Forums, Initiatives, Committees, and Technical Work Groups in face to face meetings to collaborate on the various projects that help advance the mission of the association.

Below are some key terms you are likely to encounter during an SNIA Symposium:

• **Forum** – A SNIA Forum is a group of SNIA Members that focus on technology specific marketing and education activities.

• **Initiative** – A SNIA Initiative is a group of SNIA Members that furthers the SNIA’s purpose to develop specifications, infrastructure, and proposed standards via SNIA’s normal standards development process. The primary distinction between a Forum and an Initiative is that an Initiative is charted to do technical work via a SNIA Technical Work Group whereas a Forum is not.

• **Committee** – A SNIA Committee is a group of SNIA Members that focus on specific marketing and education activities that do not fall under a specific Forum.

• **Technical Work Group** – A SNIA Technical Work Group (TWG) is a group of SNIA Members that carry out original technical work of the organization. There are multiple Technical Work Groups working on a variety of technical topics.

**Intellectual Property Notice**

If you plan to attend any Technical Work Group and/or SMI-S Technical Steering Group (TSG) meetings: “You are hereby informed that, under the SNIA IP Policy, your presence at a Technical Work Group meeting may obligate you and/or your company/organization with respect to any of the work items of the SNIA Technical Work Group whose meeting you attend.” Attending an SMI-S Technical Steering Group (TSG) meeting is to be considered as attending a meeting of all the Technical Work Groups involved in SMI-S technical development concurrently.

**TWG Meeting Participation Guidelines**

Most of our Technical Work Groups (TWGs) convene at our Symposium to work on detailed technical specifications. These meetings are the continuation of an ongoing schedule established to achieve critical objectives and deadlines. Therefore, the agendas of TWG meetings are highly focused, and time management during these sessions is of great importance. SNIA Members are welcome to attend TWG meetings, but please recognize and consider that the TWG Chair and participants may not have the time to provide full updates on the group’s current work due to the intensity of the activity and time and agenda constraints. During breaks or after the meeting, feel free to ask the TWG Chair about the best way for you to get updated on or possibly participate in the TWG.

If your company is not a SNIA Member, or your company is a SNIA Member but has not joined the TWG whose meeting you are attending, your participation in the TWG meeting is restricted to that of an “observer.” In addition to the time and focus factors mentioned above, this restriction is primarily due to SNIA policies around Intellectual Property. For questions on TWG policies and procedures, please contact Arnold Jones at 407-435-1067, arnold.jones@snia.org.

GENERAL INFORMATION

Welcome to the SNIA 2017 Annual Members’ Symposium! This guide is designed to assist you in maximizing the benefit of your participation in the Symposium, whether you will be physically attending, or virtually attending by calling into the meetings during the week.

The SNIA Symposium’s primary function is to bring together SNIA’s Forums, Initiatives, Committees, and Technical Work Groups in face to face meetings to collaborate on the various projects that help advance the mission of the association.

Below are some key terms you are likely to encounter during an SNIA Symposium:

• **Forum** – A SNIA Forum is a group of SNIA Members that focus on technology specific marketing and education activities.

• **Initiative** – A SNIA Initiative is a group of SNIA Members that furthers the SNIA's purpose to develop specifications, infrastructure, and proposed standards via SNIA’s normal standards development process. The primary distinction between a Forum and an Initiative is that an Initiative is charted to do technical work via a SNIA Technical Work Group whereas a Forum is not.

• **Committee** – A SNIA Committee is a group of SNIA Members that focus on specific marketing and education activities that do not fall under a specific Forum.

• **Technical Work Group** – A SNIA Technical Work Group (TWG) is a group of SNIA Members that carry out original technical work of the organization. There are multiple Technical Work Groups working on a variety of technical topics.

**Intellectual Property Notice**

If you plan to attend any Technical Work Group and/or SMI-S Technical Steering Group (TSG) meetings: “You are hereby informed that, under the SNIA IP Policy, your presence at a Technical Work Group meeting may obligate you and/or your company/organization with respect to any of the work items of the SNIA Technical Work Group whose meeting you attend.” Attending an SMI-S Technical Steering Group (TSG) meeting is to be considered as attending a meeting of all the Technical Work Groups involved in SMI-S technical development concurrently.

**TWG Meeting Participation Guidelines**

Most of our Technical Work Groups (TWGs) convene at our Symposium to work on detailed technical specifications. These meetings are the continuation of an ongoing schedule established to achieve critical objectives and deadlines. Therefore, the agendas of TWG meetings are highly focused, and time management during these sessions is of great importance. SNIA Members are welcome to attend TWG meetings, but please recognize and consider that the TWG Chair and participants may not have the time to provide full updates on the group’s current work due to the intensity of the activity and time and agenda constraints. During breaks or after the meeting, feel free to ask the TWG Chair about the best way for you to get updated on or possibly participate in the TWG.

If your company is not a SNIA Member, or your company is a SNIA Member but has not joined the TWG whose meeting you are attending, your participation in the TWG meeting is restricted to that of an “observer.” In addition to the time and focus factors mentioned above, this restriction is primarily due to SNIA policies around Intellectual Property. For questions on TWG policies and procedures, please contact Arnold Jones at 407-435-1067, arnold.jones@snia.org.

SNIA 2017 ANNUAL MEMBERS’ SYMPOSIUM

General Information .................................................. 4 - 6
Agenda ................................................................. 7 - 9
Meeting Details ....................................................... 10 - 14
Meeting Location Map .............................................. 15
Welcome Symposium Attendees,

On behalf of the SNIA Board of Directors, Technical Council, Workgroup/Forum/Initiative/Committee Leaders, and SNIA staff, it is my pleasure to welcome you to the 2017 SNIA Annual Members' Symposium.

We have created an agenda that brings together SNIA’s various groups to work in a face-to-face setting to advance their projects and the strategic goals of the organization: standards development; market awareness initiatives; and educational and conference programs. These meetings help define the objectives and set the pace for our 2017 activities.

A tradition in the Annual Members’ Symposium is to recognize those members whose efforts and contributions during the past year were voted the most noteworthy by their peers. So, be sure to attend the reception on Wednesday evening. We will be announcing and toasting the 2016 SNIA member recognition program honorees.

Co-located with the Symposium on Wednesday is our annual Persistent Memory Summit. This year’s theme is “Delivering on the Convergence of Storage and Memory”. This Summit will run parallel with the Annual Members’ Symposium, and will share the morning speaker.

This is an exciting time of technology change in the industry. We look forward to a productive event and encourage you to get involved and become an active participant in our organization.

We also express our gratitude for your attendance and contributions to the Symposium. SNIA recognizes that its programs, industry relevance, and momentum are sustained through the direct participation of members like you.

Thank you and enjoy the Symposium,

David Dale
Chairman, SNIA Board of Directors

Michael Oros
SNIA Executive Director
