Introduction

Who is Greg Schulz, contact and other information

Has been IT Customer

Application systems development
Systems programming/management
Performance and Capacity Planning
Data Protection/Backup/BC/DR
Electric Power, Financial, Transportation

Has been Vendor

Storage, Network, SSD, Disk & Tape
Backup/BC/DR, RAID, Replication
NAS, SAN, LAN, MAN and WAN
Hardware, Software & Services
Sales Engineering, Tech Marketing

Industry Analyst/Advisor

Cloud, virtualization/VDI, servers,
HW, SW, servers, software defined,
services, archive, backup/BC/DR,
performance/capacity planning
Four time VMware vExpert
StorageIO.com

Author and Consultant

Syndicated columnist & blogger
StorageIOblog.com & StorageIO.TV

Twitter @storageio | Facebook.com/storageio | Storageioblog.com | storageio.com/newsletter

Where to get this presentation

www.storageio.com/DSI2014

The full presentation for this session (and others) is available for free (no registration required) on the StorageIO downloads page here:

In addition to advisory along with custom research or consultancy activities, StorageIO periodically publishes industry trends perspectives reports, white papers as well as solution briefs. These free resources are in addition to regular blog postings, twitter tweets, articles, tips, FAQs, videos, pod casts, webinars along with in person speaking and keynote events around the world. View press mentions, perspectives, quotes, comments and interviews pertaining to industry news activity at the Server and StorageIO news page. This page contains various documents including handouts and presentations from speaking events available for download some of which may be password protected. Note that some of these items may be password protected. Learn more about Greg's books *The Green and Virtual Data Center* and *Cloud and Virtual Data Storage Networking* (both via CRC/Taylor Francis and Intel Recommended Reading) along with *Resilient Storage Networks* (SNIA Education endorsed reading) at Amazon.com among other global venues.

Where to learn more, next steps

This Page Intentionally Left Blank (For now...)

Closing comments (For Now...)

Where to learn more, next steps

Prepare and plan for your journey

- You can't effectively manage or make decisions on what you don't know about
- Hybrid Clouds provide a "home run highway" for many environments
- Not everything is the same in the data center (information factory)
- Explore how you can use new and old things in new or Hybrid ways
- Start your journey now with Cloud and Virtual Data Storage Networking
- Get your copy of this presentation at www.storageio.com/DSI2014

Where to learn more

- www.storageio.com (articles, videos & webcasts)
- www.storageio.com/books.html
- www.storageio.tv www.storageioblog.com and twitter @storageio
- Feel free to call, IM, tweet, or email greg@storageio.com

Thank You...

Greg Schulz
